

FEBRUARY 17, 2009 -- "THE GRAND STAGE OF LIFE"

Good morning Beloved Servant of Humanity. We wish to convey to you today the emanations of light encoded energies affecting your world of manifested form. The time has come for all those of higher vibration to move into their roles of Divine service and appointment.

We ask you to ponder what role you are choosing to be in service to the All, the many as One.

In the 5th Light, we are a collective of beings who are “connected” by thought in effort to serve in the light with love, and only love brings truth. The 5th Light is a place of tranquility, peace in infinite potential for those who have surrendered and detached from emotion.

The 5th Light is void of emotion and full of being-ness. It is a state of being in perfected form based on the presence of truth, love and compassionate wisdom. The 5th Light is the level of true mastery in form. In order to move into the 5th Light space, one must master the level of the 4th Light by mastering the mind, the arena of manifested thought projection.

The 4th Light is a formless space, yet filled with many manifested beings of energy who use the mind as their only means of maneuvering through the energetic “soup” of this level. The 4th Light is the astral place of much to ponder – of beings who are as unconscious and in pain-filled emotions as those in manifested physical form. The being who successfully navigates this 4th Light level of vibration will be the One who sends unconditional love and light to those along the way to the 5th Light level.

We ask you to ponder the fact that you are all in the 4th Light and have the opportunity to grow in love and elevate your consciousness to new levels of vibration simply by trusting your guidance from your heart space within. Therefore, the less said, verbalized and manifested by random thought, the better, as this frees you to remain at watchful state of presence. Only that which is your creation are you held responsible.

Be cautious of what emotions arise these weeks and months ahead as you are in the process of cleansing and mastering the 4th Light space into which you have moved. Television, music, the media, newspaper and certainly the internet are the arena of the 4th Light.

We ask you to ponder this day, where you are energetically in relation to the “play” of life. Where do you choose to act and on what stage? What do you choose to tune into? Where do you place your attention, thought and focus? Where do you derive your joy? Or are you consumed with 3D physical pleasure and emotions of power, manipulation and control?

The mind is the play ground of Earthly delights as well as the horrors of choice. Is your “play” in a large venue or small stage in a local theatre or even in your own domain? No matter where you choose to be the actor on the stage of life, the collective consciousness of mankind affects the All, the One, the many. Choose well beloveds, for you are the creators of your reality here and in the dimension of the 4th Light.

Be in love, be at peace and know that you are Gods of your own reality. We love you and support you in your level of consciousness and manifested form as we have been where you are. Stay in your heart space at all times for this is being with the Divine at all times—a place where only love and light are allowed.

We are the One voice, The Messengers of the 5th Light. February 17, 2009 -- 6:31 a.m.
