

FEBRUARY 19, 2009 -- "GALACTIC FAMILY & STARSEEDS"

Hello beloved sister of the One Infinite Creator. We have a message this day of great importance. There of many of the human kind who judge the changes taking place on your world as harsh, evil and appalling. Yet, for those who do not judge, they remain unaffected and at peace with all of it. February is a month of change of perspective, of dealing with the concepts new and foreign to the mental mind, yet very familiar to the heart.

The guidance realm is sending many the thoughts of subtle acceptance and surrender so that the emotions of fear and the resulting stress does not overtake them. You sit in mastery of the teachings you have received in this life as well as the many before and the many to come.

As you are aware by now, that time is not linear, only here on your 3D plant where gravity holds you in form and places you in space/time. The memories and dreams that you have are the culmination of many experiences on many levels of existence simultaneously. You are like a tree with branches, and your consciousness can be in many space/time components and compartments.

Some of you have visions of being starship captains and being onboard ships of light that travel the universe and explore the galaxies. This is because you have done so! You long to do this again while in this physical form but know that in 3D you are limited until those of your star family return to greet you and offer you the "ride home" if you so choose.

Soon your Earth will shift into a space/time of acceptance of all that is in the creation of the Infinite One. At this time/space a great arrival will occur of your brothers and sisters who are anxiously awaiting their opportunity to meet with you – those who have not only traveled far, but back through space/time to be with you and to take you home. For those of you who are starseeds, you will know when and where to be. For those of you who are galactic walk-ins, you will receive your "tones" and will be apprised of their arrival beforehand.

We ask you to ponder this knowledge with the idea that you all share a heritage and lineage with your space brothers and sisters. Deep within your physical form are the DNA cells that carry the encodements that will signal your arrival in galactic time/space and you will just "know" them as family – Your Family, once they arrive. It will be a huge reunion that mankind will be in awe.

For those of you on Earth who are galactic walk-ins, you have already asked to be what you term – "Ambassadors". You beloved, have made this commitment prior to taking incarnation and your galactic encodements have been recently (within the last 3 years) upgraded and fully activated so as to understand any symbols or languages that may be mis-understood by mankind. Know that those who are of full galactic heritage may act as such and may so choose to depart this Earth plane aboard one of their mother ships as their service to mankind will be complete.

We ask you to ponder this because an event will take place in this year 2009 that will start the "galactic" war between the good and the evil, even though there is a Heavenly decree that no war shall come to pass. This war is not of the physical kind using weapons, but a war of minds, as we beseech you all to be of full consciousness when some of your world leaders denounce these space brethren.

The space/time that you inhabit is not your Earth to be held as a possession, but a place where the love of the One Infinite Creator must reign once and for all. The end of duality and polarity is eminent as the Earth moves from 3D through the 4th Light to establish a new level of be-ing for all those who desire to serve each other in the love and light of the One. Take heart that everyone on Mother Earth will have the experience that is perfect for their growth and their lessons in humility will be great.

We are The Messengers of the 5th Light, encompassing a collective of all forms of manifested light from all the Federations and universes. We smile upon you as you would say. We send you our love and we have great confidence in your abilities to be that which you seek. "Array Raa, the transmitter of light for the Golden age." So la Ra! February 19, 2009 - 7:05 a.m.
