

JULY 13, 2009 -- “DISSOLVING THE VEIL OF UNCONSCIOUSNESS”

(From the Messengers of the 5th Light as channeled by Anna Beatrice)

Greetings Daughter of the One Infinite Creator –

We say hello to you this day as we look upon you and your world as it transitions in form. There are many in your world who look out and see changes in every aspect of their lives. You know many who are personally being challenged by the shifts taking place both within and without, internally and externally.

We ask you to hold space for them as a lightworker by anchoring the “light” as it permeates your time/space from the creative forces of the One Infinite Creator where the dynamics of transmutation flow through the invisible and unmanifested.

Now we say to you that as part of your birthright as a human, the choices now being made must be of impeccable and refined vibration. Thusly, your most intimate thoughts affect the Many and the All.

In the swirling currents of electro magnetic energy are the unmanifested potentials for all. Whatever energy is added to this electro magnetic 'soup' will be the results of the many co-creative choices. What this means is that your world is now at the cross-roads, the precipice of the complete and final lifting of the veil, not of forgetfulness but the lifting of "unconsciousness." Yes, we say that the veil has been the divider, the boundary between conscious living and the unconscious meanderings of the reality created by lack of clarity and focus.

Thusly we ask you to consider that as the veil of unconscious living becomes non-existent, the process of ascending into the next vibration will allow those who have been cultivating clarity and consciousness to now embrace the ability to create their reality with precision and rapidity. For those just becoming aware of their new-found abilities, they may experience great fear and anxiety over this ability to create so quickly.

The new frequencies are easily traversed for those in their mastery who have cultivated and nurtured a loving heart through acceptance, surrender to all, gratitude and compassion. These are the key ingredients to creating a New Earth in the intense energies now surrounding your planet Earth.

We ask you to ponder how you wish to be in your mastery, as you are the Lightworkers, the Starseeds, the Travelers, the Wayshowers who have incarnated Now to raise the light and to be the anchors who Now are merged and unified as One.

Know that we, the Messengers of the 5th Light, are your ascended selves who are here with you in the next level, encouraging you, holding presence for you and awaiting your return among us here in the pearlescent cities of crystal and radiant light.

Once you have fully arrived and your Beingness has dissolved all the veils of unconsciousness, you will merge with us, you will be as One with us, as you will become timeless and formless, ever-expanding as Beings of Light. You will know the joy, love and bliss of being in your natural state as creator gods. You have created the vessels you now inhabit to fulfill this Divine mission on Mother Earth.

Now as you merge with your ascended selves, you become All and One. There is no need to fear the dropping away of the 3rd dimensional world of form as you are already All. It is not the dropping of the 3 dimension but the adding of the 4th and 5th Dimensional (overlays) to your reality.

Thusly, you can create all you so desire from the fabric, the essence of your experience in 3rd dimensional form. The only difference is that what you will create will be "lighter" and more vibrant!

We say to you that embracing this transition is the greatest gift you can receive in form as a human. Know your mastery includes alchemy.

We leave you now with the peace of this message as all is truly well.
