**“YOU ARE THE VOICE OF CHANGE”**

*(From the Messengers of the 5<sup>th</sup> Light as channeled by Anna Beatrice)*

Daughter of Light Welcome!

Beloved Daughter of Light, Welcome. We have much to say this day. Your world is like a roller coaster where your brothers and sisters are going through the energetic highs and lows of the financial tides, climate changes, sickness and weariness. It seems that the powers that be in your many countries across the globe have no idea how to turn off the roller coaster ride they built many, many decades ago. The ride is no longer an amusement for anyone who ventured on a thrill. Now, those of your planet are stiff and tired, aching from the constant upheaval and unpredictable weather.

We say to you this day, look at the bigger picture of what is your world. We say that those who govern your lands are just as weary now, with no sound solutions to the defective programs and policies created by those who had greed and control in mind. We ask you to ponder what role you can play in bringing stability and peace into your world. What can you do individually as well as collectively as a society to be the change you seek.

Those of you who say, “I am only one person. No one would listen to me. I have no voice!” We say to you. Yes, you do. You have a voice, not in your words but in your actions and deeds.

You can change the world and the energy that surrounds your planet by doing one thing every day to make your world a better place to live. We say pick up a piece of paper off the ground. We say save your scraps of paper and old newspapers and use them to make things. Remember the old ways? You live in a disposable world – food is wasted, water is wasted, air is polluted, cars and other vehicles are

junked in yards with great piles of decay and rust. Your lands are filled with waste. We ask you to be more aware of the wasteful energy that pours forth from your human population, including the rampant thoughts surrounding the mundane.

If you wish to get off the antiquated and defective roller coaster ride, we say to take control of your lives, re-evaluate every part of your play in creating the world you are living in. Shut off the electronic noise makers, the televisions, the IPODs, MP3 players and listen to the voice that begs to be heard. If you want your voice to be heard, if you are seeking change, how can you expect results if you don't even hear your own voice?

Do you know what you want? Speak to yourself first and listen with an open mind, with an open heart. You will be very surprised how much you have to say and how you can change the world. Only then will you have the answers to the questions you have asked for a lifetime.

We ask you to go within and ponder your life. Get off the roller coaster and take charge of your life, your actions and your words. For your dear Mother Earth will only wait so long before she topples the roller coaster and sets her children free.

We ask you to be kind to one another, to see the good in one another and reserve judgment as you all mirror one another in the game of life.

We are the Messengers of the 5<sup>th</sup> Light. 3-6-2010 7:43 a.m.
