

MAY 18, 2009 -- "FREE-FLOATING"

(From The Messengers of the 5th Light as channeled by Anna Beatrice)

Hello beloved daughter of the One Infinite Creator.

I am here to represent The Messengers of the 5th Light, as a collective energy of beings. We are part of the ascension process being acted out on your planet of 3rd dimensional expression and form.

The energies of the solstice which come in very strongly on June the 21st of your linear time will usher in the myriad frequencies of a galactic core, the light and particles of highly charged photon neutrino emissions from beta and delta frequencies.

These are uplifting to the conscious mind of man. In other words, the experience will be that of freeing the mind – a detachment from the concerns of a material nature, of being part of a matrix over-mind. All lifting into the higher dimensions of being, takes place as a result of the freeing of the mind from the processes of thought as perpetrated by the skillful

manipulation of those who would keep you trapped in lower frequencies of fear, anger and oppression.

The ability to free your selves and lift out of these states of being will be accomplished with the influx of these beta and theta waves.

What we suggest is that many will experience the sensations of free-floating, of the grip of 3D being lessened and removed.

This will be as if there is a lessening of gravity, which is really the thinning of the veil and the ability to see and feel what lies around, above and below – an experience of multi-dimensional beingness. It will be as if you are everywhere and nowhere simultaneously.

We are a group of beings who can materialize and dematerialize at will. This is the only way we can describe what lies ahead as you move from 3D to 5D. You will start to experience your own metamorphosis and the ability to dematerialize out of 3D and into a new being of light who will re-materialize and re-molecularize into a 5D being.

This is the start of the physical ascension process, and the opening of the gate to the next level of being.

We ask you to ponder this ability as a birthright for all who had chosen to incarnate at this time. It is your creative ability as a spark of the One Infinite Creator to be able to manifest a new Being in form to live in the Light, to love and be in joy with All That Is, the One and the Many.

Stay in your heart space as you feel these changes upon you and know that you are spirit first, a unique spark of creative possibility and limitless, eternal life.

Be in joy. Be in love and feel the love that glows inside of you.

We are complete. The Messengers. 5/18/2009 6:21 a.m.
